Information About The Service

Service Description

TPG's nbn® M Bundle service is delivered via the National Broadband Network (NBN) using FTTP, FTTB, FTTN, FTTC or HFC technology to the network boundary point of your premises. TPG nbn® M Bundle includes the following components:

- nbn® Broadband
- Voice Service (no included calls)

TPG nbn® M Bundle is only available to existing TPG internet customers choosing to switch their internet service to this bundle at their current residential address ('Change of Plan') or at a new residential address ('Moving Home').

Important Note: If you choose to bring your own modem, you will receive a data-only nbn® service. The Voice service component will not be included; and you will not be able to make or receive calls.

The service is a pre-paid service and bills are not issued. An additional prepayment is required if you wish to make any calls that are not included as part of your plan. Payment options are Direct Debit or Credit Card.

Minimum Term

The nbn® M Bundle plans are supplied on a no lock-in contract (customers are permitted to terminate the service by giving 30 days notice). See Minimum Total Cost in the table above.

Availability

The nbn® M Bundle is available at selected coverage areas and subject to infrastructure availability at customer's premises. To check for availability, please use the address checker [here](#).

nbn® Charges

New Development fee: \$300 will be charged to your bill if nbn® has to activate a connection for the first time at a premises it classifies as a 'new development'. Other fees such as Missed appointment fee, Cancelled appointment fee, Subsequent installation fee and No Fault found fee may apply to you. We may also pass on any administrative costs that TPG incur in providing you with assistance or arranging an appointment with nbn®. Please see your Plan Details for more information.

Bundling Arrangements

Once an nbn® Bundle is purchased:

- The Change of Plan option is restricted to TPG nbn® Bundle plans.
- You cannot separately cancel an individual component of this nbn® Bundle (nbn® Broadband or Voice Service). Cancellation will cease both services.

nbn® Speeds

Typical Evening Download Speeds are subject to change and are measured 7pm-11pm. Typical Evening Upload Speeds are estimated by reference to the maximum upload speed. The actual speeds for the service may be slower and vary due to many factors including type/source of content being downloaded, hardware and software configuration, the number of users and performance of interconnecting infrastructure not operated by TPG. Devices connected by Wi-Fi may experience slower speeds than those connected by Ethernet cable. If you are a customer on a NBN FTTN/B/C connection, we'll inform you of your maximum attainable line speed for your service once we receive this information from nbn® after activation. Should your maximum attainable line speed not be capable of reaching your plan speed, we'll provide you with options, including to downgrade or cancel your service for no extra charge and with a refund.

Equipment Required

If you do not already have the required nbn® infrastructure installed at your premises, you or an authorised person over 18 years of age will be required to be home on the day of installation for a technician visit. If we find that you will require a technician visit to perform the installation, we will advise you of the date and time after registration. You need an nbn® compatible modem to connect your devices to TPG nbn® Broadband service. To be provided a working Voice Service, you need a standard phone handset (approved for use in Australia) and you must choose the option with TPG modem included. If you are an existing TPG nbn® customer you may be able to use your existing modem – we will advise you if your modem is compatible during your registration. When you connect to nbn® certain equipment or services at your premises may be impacted and no longer operate. These include medical devices, alarms, EFTPOS machines, lift emergency phones and some email or fax services. Please contact the equipment manufacturer or service provider if you are unsure.

Inclusions & Exclusions

Non-commercial purposes: The service is for residential consumers and used for personal or domestic purposes only.

Voice Service Calls: Customers on the nbn® M Bundle may make calls (if applicable) at [listed TPG rates](#) on a 'pay as you go' basis and are deducted from your prepaid balance. Customers may choose to add Call Pack (see below) which includes certain calls. Calls that are not included in your Call Pack (e.g. calls to 13/1300 numbers and Directory Services) will be charged at [listed TPG rates](#) on a 'pay as you go' basis and deducted from your prepaid balance. [Standard International Call Rates](#) apply for calls to satellite phones and international calls that are not included in your Call Pack. Some calls are not supported, such as calls to 19/1900. For more information, see [here](#).

CSG Waiver: The standard Monthly Charge and Setup pricing stated in the Information about Pricing section are based on new customers agreeing to waive the Customer Service Guarantee (CSG).
