

Information about the Service

Service Description

Fibre to the Building (FTTB) is a high speed broadband service that is delivered using fibre optic and other network equipment that has been installed in the basement of multi-dwelling buildings. TPG makes use of existing copper wires within the building to enable communication between the customer premises and TPG's equipment.

TPG FTTB with Home Phone LARGE Bundle includes the following components:

- Unlimited FTTB Broadband
- Home Phone
- Large Bundle:
 - Unlimited Local Calls
 - Unlimited Standard National Calls to Landlines
 - Unlimited calls to Standard Australian Mobiles
 - Unlimited calls to Landline & Mobile numbers in 11 countries (China, United States, United Kingdom, Malaysia, Canada, Hong Kong, Singapore, Germany, Taiwan, Greece, France)
 - 500 Call Minutes to India Per Month

The Service is a pre-paid service and bills are not issued. Prepayment is by automatic top-up.

Availability

Only available in selected buildings. To check for availability, please use the address checker at www.tpg.com.au/fttb/coverage

Bundling Arrangements

Once an FTTB with Home Phone Bundle is purchased:

- Change of plan option is restricted to TPG FTTB with Home Phone Bundle plans only
- You cannot cancel either component (FTTB or Home Phone). Cancellation will cease both services.

#FTTB Speeds

Actual throughput speeds may be slower and could vary due to various factors including interference, customer cabling and equipment, download source, and quality and distance of in-building copper. Medium, Large & Extra Large plans have an upload connection speed of up to 20Mbps.

Equipment Required

A compatible 4 Port Wi-Fi Modem Router is included in FTTB Bundle plans. \$10 Delivery fee applies if equipment is not collected from TPG's Head Office.

Minimum Term

FTTB with Home Phone Bundle plans are supplied on a 6 month or 18 month contract term. See Minimum Total Cost applicable in the Information about pricing section. Early termination fees apply.

Inclusions & Exclusions

Home Phone Included Calls (FTTB with Home Phone Large Bundle): FTTB with Home Phone Large Bundle gives you the right to make unlimited calls to Landline & Mobile numbers in 11 countries (China, United States, United Kingdom, Malaysia, Canada, Hong Kong, Singapore, Germany, Taiwan, Greece, France), unlimited Local Calls, unlimited Standard National Calls to Landlines and unlimited calls to Standard Australian Mobiles. The bundle also includes 500 Call Minutes to India per month. Unused included minutes for calls to India expire at the end of each month. Standard per minute rates listed on our [International Call Rates page](#) apply for International Calls to other countries and for calls to satellite phones. Charges for calls made that are not included (13/1300 calls) in the bundle will be charged at [listed TPG rates](#) by deducting usage charges from your Home Phone Prepayment Outside Included Value. The service is for residential consumers only and may not be used for commercial purposes.

CSG: The Home Phone monthly and setup pricing is based on customers agreeing to waive the Customer Service Guarantee (CSG). For more information please contact TPG Sales on 13 14 23.

Directory Assistance – 1223	\$1.10 per call
TPG 13 14 23	Free

Backup Power Service:

The FTTB equipment TPG installs in your building includes a backup battery unit which will keep some elements of your telephone service operating if there is a power outage in your building. This backup battery unit will keep power going to TPG's FTTB equipment in your building but it will not supply power to either your handset or your Internet modem router. This means that if you have a telephone handset that does not require power and that handset is plugged into the wall socket where TPG delivers the FTTB with Home Phone service, then if there is a power outage you will be able to make and receive telephone calls (including calls to emergency services) for a period of up to 4 hours. However, if you have a telephone handset that needs power to function (e.g. wireless handset); then during a power outage, you will not be able to make or receive any calls, including calls to emergency services.

Network Boundary Point & Installation Notes:

TPG will supply every customer with a Wi-Fi Modem to get connected with TPG's FTTB with Home Phone service. Customers are required to pay a \$10 standard delivery fee or a customer can either collect the necessary equipment from TPG's head office in North Ryde NSW.

On the date of the installation, a TPG technician will arrive at the Main Distribution Frame in the customer's building and connect the copper pair cable from the customer's side (MDF "B") to TPG's equipment (MDF "A"). TPG's technician will make sure equipment between customer's premises and TPG's head end equipment is connected correctly before the service can be marked as active. TPG's responsibility and demarcation point is the Main Distribution Frame (MDF). TPG is not responsible for the in-building cabling.

Once FTTB with Home Phone Bundle has been activated, if you currently have any existing services like phone or internet at your premises, you will need to contact your current provider to have these services cancelled to ensure you do not receive any further bills. TPG recommends you check with your current phone and/or internet service provider regarding contractual commitments and termination/disconnection fees associated with your current services. TPG is not responsible for these charges. If you are also porting your existing phone number to TPG, do not cancel your phone service until the number has been ported.

Other Information

Usage Information

You can monitor your Broadband and Home Phone usage by logging into Your Account online at www.tpg.com.au/account.
