

Information about the Service

Service Description

TPG's NBN Broadband with Home Phone service is delivered via the National Broadband Network (NBN) to the network boundary point of your premises.

TPG NBN Broadband Mega Bundle 12/1 includes the following components:

- NBN Broadband
- Home Phone Line Rental
- Mega Bundle
 - Unlimited Local Calls – Incl. 13/1300 Numbers
 - Unlimited Standard National Calls to Landlines
 - Unlimited Calls to Standard Australian Mobiles
 - Unlimited International Calls to landline and mobile numbers in USA, UK, Malaysia, Germany, Taiwan, China, Singapore, Canada, Hong Kong and France

The Service is a pre-paid service and bills are not issued. Prepayment is by automatic top-up.

Availability

Only available in selected coverage areas. To check for availability, please use the address checker at www.tpg.com.au/nbn/coverage.

Equipment Required

If you do not already have the required NBN equipment installed inside your home, you or an authorised person over 18 years of age will be required to be home on the day of installation for a technician visit. If we find that you will require a technician visit to perform the installation, we will advise you of the date and time after registration. You need an NBN compatible router to connect your devices to TPG NBN Broadband service. A Wi-Fi router is included in the NBN Broadband Mega Bundle 12/1.

Minimum Term

The service comes with no lock-in contract. Customers are permitted to terminate the service by giving 30 days notice.

Directory Assistance – 1223	\$1.10 per call
TPG 13 14 23	Free

^ Charged per 30 second block or part thereof

Backup Power Service

Our service includes, at no additional charge, the supply of a backup battery unit. The backup battery unit will keep some elements of your telephone service going if there is a power outage at your premises. This backup battery unit will keep power going to your NBN Network Termination Device but it will not supply power to either your handset or your Internet router. This means if you have a telephone handset that does not require power and that handset is plugged into the UNI-V port on your NBN NTD, then if there is a power outage you will be able to make and receive telephone calls (including calls to emergency services) for an estimated period of time of about 5 hours.

However, if 1) You remove the battery backup unit, or 2) The unit is faulty or the battery is not replaced after the battery gets low on power, or 3) You have a telephone handset that needs power to function (e.g. wireless handset); then during a power outage, you will not be able to make or receive any calls, including calls to emergency services.

Other Information

Usage Information

You can monitor your Home Phone usage by logging into Your Account online at www.tpg.com.au/account.
